

JOURNAL OF SOLUTION CHEMISTRY

Volume 10, 1981

Journal of Solution Chemistry is a forum for research on the physical chemistry of liquid solutions, covering such physical chemistry, chemical physics, molecular biology, statistical mechanics, biochemistry, and biophysics. The emphasis is on papers in which the solvent plays a dominant rather than incidental role. Most papers report experimental investigations of the dielectric, spectroscopic, thermodynamic, transport or relaxation properties of both electrolytes and nonelectrolytes in liquid solutions. Only those studies on pure liquids having some of their properties as solvents are considered. Theoretical papers that relate explicitly to measurable solution phenomena and papers describing new or novel apparatus or experimental methods are acceptable. A more detailed description of the editorial policy can be found in the Introductory Statement in the first issue.

Articles, symposia, book reviews, and a calendar of meetings of interest to the solution chemist may appear from time to time. If the demand warrants it, a section on short communications will be instituted.

Editor

John W. Kay

EDITORIAL BOARD

- John W. Covington, The University of Newcastle upon Tyne, England
Guy Desnoyers, Université de Sherbrooke, Québec, Canada
Wolfgang H. Fertig, Humboldt-Universität, Berlin, GDR
John L. Glandt, University of Minnesota, Minneapolis, Minnesota
John Frank, Pomona College, Claremont, California
John G. Kirk, University of Cambridge, Cambridge, England
Robert S. Friedman, State University of New York, Stony Brook, New York
Joseph M. Fuoss, Yale University, New Haven, Connecticut
John Hepler, University of Lethbridge, Lethbridge, Alberta, Canada
Peter J. Kitz, University of Karlsruhe, Karlsruhe, Germany
John J. Kozicki, Rensselaer Polytechnic Institute, Troy, New York
Jacques de Justice, Université de Paris VI, Paris, France
John Baum, University of Kansas, Lawrence, Kansas
John M. Camy, University of Minnesota, Minneapolis, Minnesota
Vladimir V. Golovin, Academy of Sciences of the USSR, Moscow, USSR
John D. Gakes, University of New England, Armidale, Australia
John A. Wood, University of Delaware, Newark, Delaware

Assistant, Georgia T. Killcrece, Carnegie-Mellon University, (412) 578-3127
